Through in six minutes. For the preparation of Ice Creavas, Water Ices, &c.—Patented September 19, 1848.

THE dist'aguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

24. The Cream during the progress of freezing becomes charged with atmospheric sir, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and de licesy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

34. It does not require a tenth part of the labor that the common Freezer does.

44. A. It does not require a tenth part of the labor that the common Freezer does.

44. There is a considerable saving in ice, as the tub no sale no replenishing during the operation.

The same act testimonial from the Proprietor of the Jutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

It. P. JACKSON,

Eutaw House, Baltimore, May 16, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons), making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

By a late re-organisation of this department of Delaware College, the Board of Trusteis have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to ell the write which have been found to attend the amelgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegans edifice, with all the necessary fixtures of a complete boarding establishment, has been exceted and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with poculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to rectle in any of the College course, may be admitted to rectle in any of the College course, may destinate also of proper age and discretion, by recommondation charge. THE TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMHITON.—Dara Sir. Although the number and respectability of the testimonials of which you are stready in jossession, as to the efficacy of your Medicine, "THE GREAT VA, REMEDY," in the discases which it is designed to cure, are sufficient, in my opinion, to establish the reputation, and secure for it such partomage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its semployment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsis of long duration, and very suggested in its character, manifested by an almost total destriction of the digestics functions, great debility, nervousness, suscistions, and impaired appetite, with pain, and a burning sensation in the left side of the cheet, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, best entirely relieved. The case of my friends, in which your Medicine was taken, were Dyspepsis, Cheonie Headsche, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remades without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomisch, restores the wasted or enfectible energies of the digestive organs, and imparts strength and realisation to the whole spitem.

Very respectfully, yours, &c.,

Campridge, January 25, 1845.

Messrs, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great corrity say, that I entertain a very high opinion of the cent Exchequer Reports. In my judgment they are no celled by any cotemporaneous Reports, in learning ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncom-mon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library. JOSEPH STORY.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being artified to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Letter from the Hon. Henry Clay.

Assilant, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I
derived on receiving the July nuimber of the Merchants'
Magazine and Commercial Review, from viewing your
portrait in the beginning, and from reading your address
to your friends at the end of it. When we fool under obignations to those who have contributed to our information and amusement, we are naturally desirous to possess
all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed
your numerous readers (at least you have me, if I may
not speak for them) under those obligations; and the
number of your valuable work now before me, in some
degree, satisfies the desir to which I have alluded.

Thave become quite familiar with the Magazine and
Review, and have no hesitation in expressing my humble
opinion that it is eminently entitled to the public regard
and support. It collects and arranges, in good order, a large
amount of valuable statistical and other information,
highly useful not only to the merchant, but to the statesman, to the cultivator of the carth, to the manineturer,
to the mariner, in short, to all classes of the business and
reading community.

Entertaining this opinion, I am glad that it has been, and
hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, seq.

Marting your continues on hesitation in saying that I
think it one o modest, out, nevertheless, or most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his bus, ness and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, six, your obedient servant,
